

## Hole #18

Par 3

Gold~223    Blue~183    White~145    Red~111

This lengthy par 3 can be a challenge. A very large sand trap covers the right side of the hole and stretches up to the green. Two more grass bunkers lie on both sides of this green. Club selection is key to this long par 3 with a long green.

**Pro Tip-** Missing the sand trap is key to making par or birdie on this hole. The large bunker makes par very difficult. There is a stretch of fairway that is a good miss just short of the hole. Hit it there, (or on the green) make par and get ready for a long walk back to the pro shop.
